ROSENGARTEN INTENSIVE

The DAMASCENA ROSE from Bulgaria is known as the queen of flowers, one of the most precious ingredients which we use for our ROSENGARTEN INTENSIVE care. HYALURON is being produced in the skin cells and is responsible for retaining moisture in our skin. In order to maintain the hydro-lipid balance and prevent the skin from drying out we use the Hyaluronic complex in our ROSENGARTEN INTENSIVE skin care. The molecular structure of hyaluronic acid creates a protective layer on the skin and makes it look smooth and soft. Hyaluron has the great effect of binding and refilling the humidity depots of the skin and makes it appear fresh, clear and radiant.
